

Rec'd PCT/PTO 10 MAY 2005

IONAL SEARCH REPORT

Application No PCT/GB 03/04886

A. CLASSII IPC 7	FICATION OF SUBJECT MATTER B03C3/45 B03C3/41 B03C3/06							
According to International Patent Classification (IPC) or to both national classification and IPC								
B. FIELDS SEARCHED  Minimum documentation searched (classification system followed by classification symbols)								
IPC 7 B03C G01N								
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched								
Electronic data base consulted during the international search (name of data base and, where practical, search terms used)								
EPO-Internal, WPI Data								
C. DOCUMENTS CONSIDERED TO BE RELEVANT								
Category *	Citation of document, with indication, where appropriate, of the rele	vant passages	Relevant to daim No.					
Α	US 5 214 386 A (ROSSNER MICHAEL 25 May 1993 (1993-05-25) column 5, line 41-58; figure 3	ET AL)	1					
A	GB 1 205 324 A (UNISEARCH LIMITED 16 September 1970 (1970-09-16) page 2, line 50-62; figure 1	)	1					
	handaumata un listad la bla continuella ad bau C	Detect family marrhage are listed	in conser					
Further documents are listed in the continuation of box C.  Patent family members are listed in annex.								
Special categories of cited documents:      A* document defining the general state of the art which is not considered to be of particular relevance      E* earlier document but published on or after the international filing date      T* tater document published after the international or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention      T* tater document published after the international diling date      Or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention      T* tater document published after the international filing date      Or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention      T* tater document published after the international filing date      Or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention      T* tater document published after the international filing date      Or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention      T* tater document published after the international filing date      Or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention.								
*L° document which may throw doubts on priority dalm(s) or which is cited to establish the publication date of another citation or other special reason (as specified)  *O° document referring to an oral disclosure, use, exhibition or other means  *C° document referring to an oral disclosure, use, exhibition or other means  *C° document is considered novel or cannot be considered novel or cannot be considered novel or cannot be considered to involve an inventive step when the document is combined with one or more other such document is combined with one or more other such document is combined with one or more other such document is such combination being obvious to a person skilled								
*P* document published prior to the international filing date but in the art.  *a" document member of the same patent family								
Date of the actual completion of the international search  Date of mailing of the international search report								
1 March 2004 10/03/2004								
Name and mailing address of the ISA  European Patent Office, P.B. 5818 Patentlaan 2  NL – 2280 HV Rijswijk  Authorized officer
